## Element System Partition

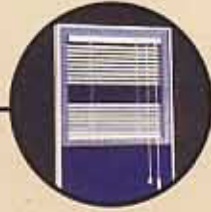

The Element Series Partition System is, further developed from the existing 550K Series Partition System designed and manufactured based on Elements, Functions, Modules and Flows in mind. And Modularity and Flexibility have been taken as a means with which a product, when combined with Element Series Partitions, can be formed into any model of work-stations, making substitutions, integrations, renewals in a later stage and a later date can be easily achieved with ease and with relative low-cost updates and revision in situation of total control. And in this way, space management and optimisation of office efficiency can be fully obtained, as nowadays, office space is very expensive, especially in big cities around the world. These are the beauty and the benefits of Element Series Partition System we dedicated to you all.

Wire trunk is designed to contain power and data cables.

One of the peripheral elements, Flipper Door Container for files, on offer.

Vertical Blind can be installed in the transparent part of partition.

Power and data receptacles can be embedded into the wire trunk.

## Executive Office

All partitions are offered in either full opaque or half opaque and half transparent or full transparent (ie. full glass) to suit your desire and needs. Besides, not only Fabric in many colour are on offer, High Pressure Laminate (HPL) in plain colour or in several wood finish are also on offer for your selection. Your special request for panels and covers of partitions to be in natural wood like the one shown here will be catered to.

## **F**lexible combination, accommodation, modification with no time constraint

550K Series Partition permit not only infinite reconfiguration of workstation in space and time, but also gradual modification of equipment and accessories. Hence, they allow you all, to plan and to pay for only what is immediately needed and to make further modifications in the future without having to change the basic system. So it is really a very economical and useful plus robust partition system we want to offer you all in this new (ie. the third) millenium.

## Attractiveness & value

550 K Series powder coated aluminium partitions can freely evolve the space, growing horizontally or vertically in the responding to the needs of modern organisations which requiring traditional operations and managerial workstations, but also shared, mobile and structured workstations.
