

## **AERON CHAIR**

### DISTINCTIVE LOOK, UNSURPASSED ERGONOMIC SUPPORT

The Aeron chair's unique and often copied form reflects a revolutionary approach to comfort and ergonomics.

Designers Bill Stumpf and Don Chadwick replaced foam and fabric with Pellicle<sup>®</sup>, a breathable, form-fitting material that allows for aeration and customized support. The innovative PostureFit<sup>®</sup> option provides adjustable sacral support to promote optimal posture for people of all sizes doing all kinds of activities, all day long.

With adaptable materials, the Aeron chair virtually becomes a part of the person who uses it. With translucent and reflective surfaces, it blends easily with the environment that surrounds it. And still it remains a design icon that looks and feels only like itself.

## Materials

Aeron is unique. Its honest design and transparency make Aeron a comfortable addition to nearly any interior. The sophisticated selection of colors, finishes, and Pellicle® weave patterns in a choice of light-to-dark neutrals suits a variety of tastes and surroundings. Base and frame finish choices complement Pellicle colors.

Samples are representative of the material to be supplied and may not indicate an exact match; some variation may occur. Visit [hermanmiller.com](http://hermanmiller.com) for the current list of textiles and finishes, detailed application information, material specifications, and information on ordering samples.
