A photograph of a bedroom. In the foreground, a bed is covered with a patterned duvet and pillows. A dark wooden bedpost is visible on the right. In the background, a window with white curtains is partially visible, and a framed picture hangs on the wall to the left.

Discover Your Perfect Sanctuary

The best things in life maybe free but uneasy to grasp. Like the pleasure of closing your eyes and freeing yourself from your consciousness. To settle and surrender yourself to your delicate dreams. Such a simple gift can be harder to achieve than you can imagine. Just like the sweetness of your faded childhood memory. We are here to help you rekindle this feeling.

Tailored To Perfection

King Koil mattresses are designed to achieve the perfect balance between elegance and unparalleled comfort. We dedicate every detail in our mattress to bring out the highest level of comfort and to achieve an authentic exquisite presence. To accomplish such qualities in all dimensions, we have devoted our immaculate craftsmanship to put together the finest materials attributing them into our products. Our commitment for perfection is the reason why King Koil mattresses are recognized as the finest.

Wool

A comfortable good night sleep is essential to your health and life. Renowned for its comfort and delicacy, wool is used in our products to ensure breath-ability providing a natural stretch to enhance your comfort and luxury for a better sleep.

Exclusive Double Euro Top

King Koil has invested a vast amount of time and resources to create this luxurious line of products for your enhanced comfort allowing you to identify your true elegance. We present you the Exclusive Double Euro Top design, a unique body cuddling comfort technology made up of layers of sumptuous upholstery, to give a delectable soothing experience.

King Koil Talalay®

King Koil Talalay® delivers the ultimate support to every inch of your body. It responds naturally to your body contour, providing proper alignment, ultimate luxury and minimizing high-pressure areas allowing a more comfortable and restful sleep.

The Mattress Understands You

A mattress that can contour perfectly with your body is what we all desire. We have dedicated our efforts to come up with a mattress that matches your body contour perfectly. The products of King Koil are tailor-made by our craftsman to bring the unmatched support and flexibility that can guarantee the highest comfort level. Selected materials and design are used in our mattresses to enhance and provide you with long, quality sleep.

Superior Foam Encasement

High-density foam is used to encase all mattress coils. This is provided to create firm sleeping areas, so you can sleep right up to the edge without a "roll-off" feeling and prevent sagging borders.

Pocket on Pocket

A combination of two layers of 5-zone Mini Pocket Springs and 3-zone Pocket Springs that gives maximum point of elasticity and proper spinal alignment for a restful sleep. Each pocket spring works independently to absorb tiredness which firmly holds your body to achieve the steady comfort and long lasting sleep throughout the night.

LFK Spring

The most elastic spring system in the world which follows your body contour perfectly and uses specialized contour zones. This is made possible by using gauges that are heavier for the hip area to provide extra comfort compared to the normal spring systems.

Hand-Crafted to perfection with inner-tufting [Patent No: ID 0 008 176-D]. The entire mattress is tufted inside, so your body will not touch with it. The inner-tufting technology provides superbly smooth texture to the skin. Extraordinary firmness and complete responsiveness come together in stitching technology that binds the entire length of the mattress from inside and shows no outward sign of stitching. This mattress also uses UETR elastic foam. For your marvelous comfort, 4 cm of King Koil Talalay® latex is provided as the perfect surface of the Masterpiece.

COMFORT

Inner Tufting

The inner tufting technology [Patent No: ID 0 008 176-d] creates just the right support for lasting comfort with smooth texture felt by your skin.

Luxurious Wool

Wool is a luxurious fiber that has natural stretch, breath-ability that enhances the overall comfort level and luxury of the mattress.

4 cm King Koil Talalay® Latex Layer

It provides the perfect sleep surface because it responds naturally to your body's shape, providing proper alignment and ultimate comfort.

SUPPORT

UETR Elastic Foam

UETR elastic foam is exceptionally porous and permeable filter foam. It has completely open-cell, three dimensional skeletal strands structure which gives extremely good air flow characteristics.

LFK, 3-Zone Contour Innerspring System

Three specialized contour zones are created through heavier gauge coils in the hip area providing more comfort than any other conventional spring system; with no border sag or coil.

Superior Foam Encasement

High-density foam is encased to all mattress coils. This system is provided to create more usable sleeping areas, so you can sleep right up to the edge without a "roll-off" feeling and to help prevent sagging borders.

DURABILITY

King-Flex® Foundation

A series of U-shaped support are welded to the springs' border wire and cross-support grid, then secured at the wooden (made of Canadian Pine) base offering the ultimate support for your King Koil mattress.

Natural Response

Express your love and affection for your children by providing them the excellent sleep experience as they grow. Supported with its 3-zone contour innerspring system technology and UETR Elastic Foam, this mattress provides a better weight distribution for healthier back support and excellent air circulation to improve your child's sleeping quality. Nothing is more important for them than ensuring a healthy sleep support during their formative years.

COMFORT

Super Hard-Foam Comfort Layer

Extra cushioning layers with varying density foams provide different degrees of plushness for a more restful sleep.

UETR Elastic Foam

UETR elastic foam is exceptionally porous and permeable filter foam. It has completely open-cell, three dimensional skeletal strands structure which gives extremely good air flow characteristics.

Solid-Edge Support

Super hard foam that is embedded into the quilting edge to give you a larger sleeping surface and eludes the sense of rolling off while you are sleeping close to the edge.

SUPPORT

3-Zone Contour Innerspring System

Three specialized contour zones are created through heavier gauge coils in specific body areas. Carbon steel double conical springs, heat-tempered for long durability and permanent elasticity.

Chiro Span Posturization

Steel-reinforced rods provide added support where body weight is concentrated.

DURABILITY

King-Flex® Foundation

A series of U-shaped support are welded to the springs' border wire and cross-support grid, then secured at the wooden (made of Canadian Pine) base offering the ultimate support for your King Koil mattress.

We Assure Quality

King Koil mattresses are designed for lasting comfort and better support. With our extensive Research and Development team, we make sure that every possible care is taken to assure the quality of our mattresses. You can count on receiving unsurpassed product quality as at King Koil, you are as good as royalty.

FCER & ICA

The King Koil Sleep System is produced with a sound concept based on the superior Comfortech technology. Designed by the best experts with a wealth of experience behind them. Its components are made of chosen materials to meet the highest standard of quality. The Foundation for Chiropractic Education and Research & The International Chiropractors Association officially endorse all products of King Koil Sleep Systems.

GOOD HOUSEKEEPING PROMISES

King Koil has proudly earned this seal every year since 1988.

For over 90 years, five generations of Americans have placed trust and confidence in the products that bear this seal. King Koil is proud to have earned the recognition and respect of the Good Housekeeping Institute on King Koil Spinal Contour and Body Response sleep sets. It's the greatest value ever added!
