Not all  
**recliners**  
created equal...

Suffering from back pain?  
Feeling stressed out?  
If so, doctors have a  
surprising suggestion...

**just recline**

**Relieves back pain** - Seven out of 10 primary care physicians agree that sitting in a reclined position at home can help decrease back pain, and 2 out of 3 are likely to recommend that patients sit in a reclined position to help alleviate back pain.

**Reduces stress** - An overwhelming 94% of doctors say about an hour a day of relaxation at home is important to relieve stress, and 96% agree that sitting at home in a reclined position promotes relaxation. Maybe that's why 3 out of 5 doctors own reclining furniture themselves!

Only LA-Z-BOY recliners give you all these exclusive features:

**the most**

- reclining positions
- 18 comfort levels
- back & footrest recline independently

**total** body & lumbar support in all positions
